

Helen Day (née Law) 1976-79 and Staff 1983-85

After Wye, I went to Perth (Scotland) to work for four years and then returned to Wye to work for John Nix in the Farm Business Unit. Trevor was in England on a Nuffield Scholarship, and as he was also the first Australian to be invited to do the Worshipful Company of Farmers Course at Wye, his host farmer was the then Wye College Farm Manager. Trevor and I met when we were both invited to Formal dinner one evening. So in 1985 I moved to South Australia and we farm about 100 kms north of Adelaide. We are dryland cropping on a 550mm average annual rainfall, as well as running Merino sheep for wool and meat. We have two children – Michael 15 and Sarah 13.
